

Environmental Policy

At Insight Global, we believe our Shared Values extend beyond our walls and into the communities and environment in which we operate. We know that by locking arms with our employees, suppliers, and clients we can fulfill our bold commitments to protect our planet and Be the Light for generations to come.

OUR COMMITMENTS

- To annually track and publicly report on our carbon emissions and climate roadmap progress.
- To establish ambitious Near-Term Science Based Targets encompassing our Scopes 1, 2, and 3 emissions.
- To continuously evaluate and improve our environmental strategies, ensuring we remain at the forefront of global sustainability goals.

OUR ACTION PLAN

- Implement eco-friendly initiatives in our operations and office spaces to reduce waste and increase energy efficiency. Where possible, we strive to occupy LEED-certified buildings.
- Educate our employees and develop internal policies and procedures that foster a culture of environmental awareness and action.
- Engage our supply chain. We expect our suppliers to comply with all applicable environmental laws and regulations and to adopt their own sustainability goals.
- Collaborate with local and national organizations that share our ambitions and support their environmental stewardship efforts.
